☐ No

post_head_sonogram_date

post_head_sonogram_time

post_head_sonogram_result1

- ☐ normal
☐ increased cerebral echogenicity/density
☐ increased thalamic/basal ganglia echogenicity/density
☐ germinal matrix hemorrhage
☐ intraventricular hemorrhage
☐ posterior fossa hemorrhage
☐ intraparenchymal hemorrhage
☐ subarachnoid hemorrhage
☐ subdural hemorrhage
☐ calcifications
☐ loss of gray/white matter differentiation
☐ ventriculomegaly
☐ porencephaly
☐ PVL
☐ abnormal cerebral signal intensity; focal
☐ abnormal cerebral signal intensity; diffuse
☐ abnormal signal intensity; gray matter
☐ abnormal signal intensity; white matter
☐ abnormal basal ganglia/thalamic signal intensity
☐ abnormal cerebellar signal intensity
☐ abnormal brainstem signal intensity
☐ infarction
☐ cerebral atrophy
☐ sagittal sinus thrombosis
☐ congenital malformation
☐ other
☐ edema (imaging)

post_head_sonogram_result2

- ☐ normal
- ☐ increased cerebral echogenicity/density
- ☐ increased thalamic/basal ganglia echogenicity/density
- ☐ germinal matrix hemorrhage
